

REFERENCE SOURCES

The UVA Libraries maintain thousands of “reference” books which can be used to locate information of all types, including biographies, facts and figures, encyclopedia articles, maps, statistics, dictionaries and many other resources. It is not possible to list every potentially useful reference book, printed or online, here—always ask at the Information Desk in any library for help in finding the specific kind of reference resource you need. That said, here are some tools that may be useful to you when researching a topic:

ACCESS SCIENCE

This is the online version of the *McGraw-Hill Encyclopedia of Science and Technology*. It also includes a dictionary component, biographies of notable scientists, student essay tools and study guides, and images in addition to its expected articles. (<http://www.accessscience.com/server-java/Arknoid/science/AS>)

CRC NETBASE COLLECTION

Online full-text access to the information contained in hundreds of science and engineering handbooks produced by the CRC Publishing Company. Access to the famous *CRC Handbook of Chemistry and Physics* is also available. (http://www.crcnetbase.com/search/advanced_search.asp)

ENCYCLOPAEDIA BRITANNICA ONLINE

Online version of the famous English language encyclopedia. Contains a dictionary and thesaurus, video clips, atlas, country comparisons, historical timelines, and quotations in addition to the expected articles. (<http://search.eb.com/>)

KNOVEL LIBRARY

The Knovel Library provides online content for over 800 science and engineering reference books from a variety of major publishers. A highly useful feature of the Knovel Library is the many interactive tables, graphs and live equations that allow users to work with the data they find in Knovel without having to use other applications.
