

UNIVERSITY of VIRGINIA LIBRARY

STS 200: Technology and Environmental Justice Spring 2008

Databases

Access through <http://www.lib.virginia.edu/databases/> and then use the alphabetical list "Databases by Title"

- **AGRICOLA:** Locate articles, books, tech reports, software, patents, etc. about agriculture and related life sciences. Part of the CSA database
 - **Biotechnology and BioEngineering Abstracts:** Search a group of CSA journal indexes covering research, regulatory developments and new patents in all areas of biotechnology and bioengineering, including medical, environmental and marine biology.
 - **Engineering Village:** Combines the databases Compendex, Inspec, Inspec Archive, and NTIS with one search interface.
 - **Science Direct:** Full-text articles for chemistry and chemistry engineering.
-

Newspapers/Magazines

Access through <http://www.lib.virginia.edu/databases/> and then use the alphabetical list "Databases by Title"

- **Lexis-Nexis:** News and business information from sources around the world; book reviews, biographical, and other reference sources; U.S. Code, constitution, and court cases. Includes many newspapers. Most entries are full-text, some updated daily.
- **Alternative Press Index:** Indexes alternative, radical and left newspapers and magazines covering cultural, economic, political and social change. Most are from the US, but some other countries are covered. The Alternative Press Index Archive extends coverage to 1969-1990.
- **Ethnic News Watch** (click on English): Full-text of newspaper, magazine, and journal articles from 200 ethnic, minority, and native publications in the U.S., in English and in Spanish.

Web Resources

Access through the Brown library's web site for subject guides at <http://www.lib.virginia.edu/science/guides> and click on Technical Reports or Gray Literature.

- Federal R & D Projects (<http://fedrnd.osti.gov/>)
- Department of Energy (<http://www.osti.gov/>)
- Scientific & Technical Information Network (<http://stinet.dtic.mil/>)

The following websites are not linked from the Brown Library page

- Environmental Protection Agency (<http://www.epa.gov/Compliance/environmentaljustice/>)
- Internet Public Library (<http://www.ipl.org>)
- American Chemical Society (<http://pubs.acs.org>)
- Google Patents (<http://www.google.com/patents?hl=en>)

See the handout *Evaluating Web Resources* for tips on “reading” web sites. And, see the Brown Library's link to other guides for evaluating web resources at <http://www.lib.virginia.edu/brown/guides/WebEval.htm>

Contact Information

For general reference questions

Kathryn Soule, Coordinator for Outreach & Public Service
924-3591, soule@virginia.edu

For Environmental Science questions

Rebecca Pappert, Librarian for Environmental Sciences
924-3845, rap8k@virginia.edu

For Chemistry questions

Beth Blanton-Kent, Librarian for Chemistry
924-6837, blanton@virginia.edu
